

JOIN ERWY IN REVOLUTIONIZING PLANT CARE WITH MAI!

Dear Sir/Madam,

January 1st, 2024

We are thrilled to introduce ERWY, the pioneering company behind MAI - the revolutionary self-irrigating water system for plants. With MAI, we are solving the challenges of consistent plant watering and transforming the way plants are cared for. As an active participant in the renowned INJAZ Company Program, ERWY is proud to compete nationally among top schools. We are reaching out to you, seeking your support to drive innovation in plant care and make a positive impact on the environment.

You can contribute to ERWY's success by becoming a shareholder or sponsoring a service vital to our product development. By doing so, you align your organization with a groundbreaking brand in the plant care industry.

The cost of each share in ERWY is BD0.500. While profits are not guaranteed, investors often receive their initial investment back with dividends such as a percentage of our company's success. We believe in transparency and strive to provide a fair and rewarding investment experience.

Join us in revolutionizing plant care and creating a sustainable future. Let's discuss how you can get involved and receive detailed information about ERWY and our out of the ordinary MAI self-irrigating water system.

We are excited about the possibilities and look forward to hearing from you. Feel free to reach out if you have any questions or need further information.

Together, let's transform the way plants thrive!

Regards,
MARWAN BADAWEY
CEO
